

# Drug and Alcohol Recovery Hub Drop-ins

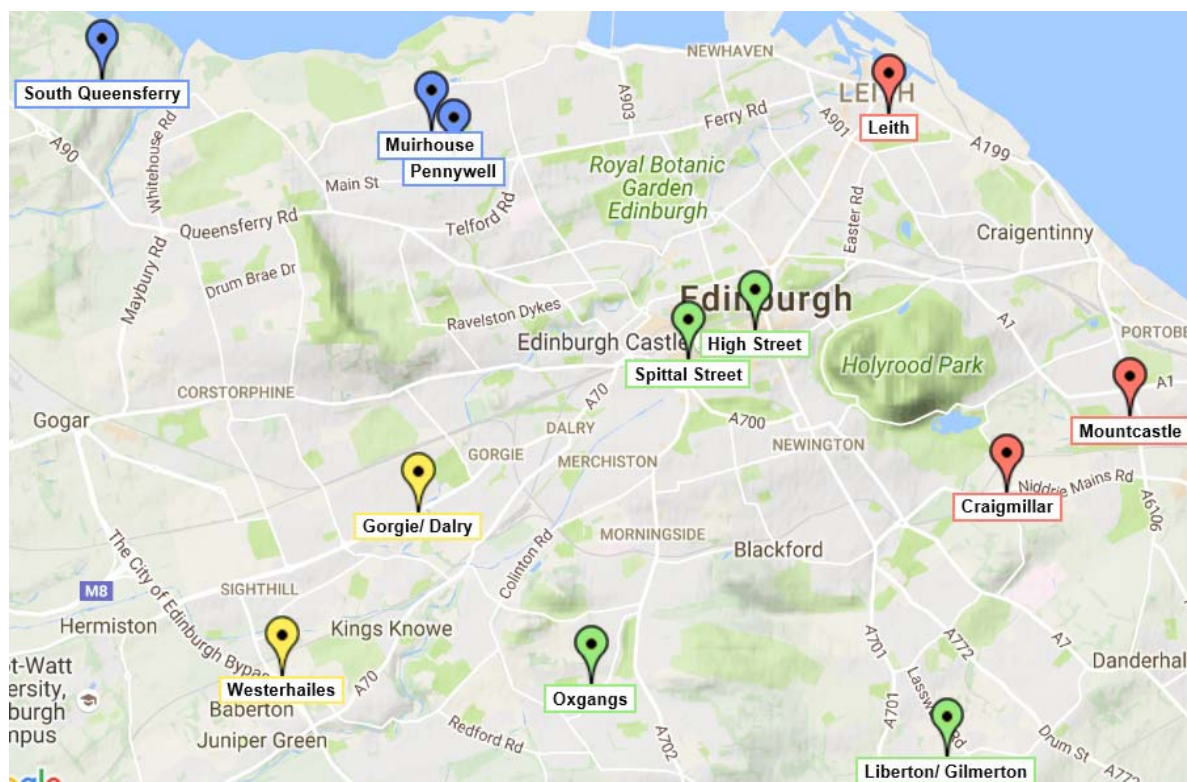

Recovery Hubs are one – stop shops offering a full range of drug and alcohol treatment and support services. Each is run by a team of voluntary sector, NHS and social work staff.

Accessing the hubs is easy. If you can, we recommend that you come to a drop in session where the worker will listen, give advice and options including a recovery plan with you. If you agree a plan with them, they will organise the next steps.

The service is confidential. If you want to know more about how we manage privacy, please contact the hub by phone (see numbers below).

All Drop-ins are open to people who live in any area of the city. If you cannot come to any of them or you want more information before coming, please call.

We offer a choice of male or female workers wherever possible.
